

# Vad visar graferna om huspriser?

Jag tror du menar graf B

Graf A visar huspriser som fortsätter att stiga men mindre för varje månad

Jag tror du menar graf D

Jag tror du behöver en helt annan graf för att visa huspriserna

?

The diagram consists of a central 2x2 grid of graphs. The top-left graph (A) shows a straight line with a positive slope. The top-right graph (B) shows a concave curve starting from the origin and increasing. The bottom-left graph (C) shows a horizontal line. The bottom-right graph (D) shows a concave-down curve starting from a high point and decreasing. Each graph is labeled with its letter (A, B, C, D) in green. Surrounding the grid are four cartoon characters, each with a speech bubble. The top-left character (a girl with orange hair) says 'Jag tror du menar graf B'. The top-right character (a woman with dark skin and curly hair) says 'Jag tror du menar graf D'. The bottom-left character (a woman with brown hair) says 'Jag tror du behöver en helt annan graf för att visa huspriserna'. The bottom-right character (a boy with glasses) has a speech bubble containing a question mark. A larger speech bubble on the left side of the grid says 'Graf A visar huspriser som fortsätter att stiga men mindre för varje månad'.

Vad tror du?
